Modernizing, Securing, and Operating Mission-Critical Federal IT

AAC combines 40+ years of federal systems integration experience with enterprise IT, cybersecurity, AI, and mission operations expertise.

CAPABILITIES OVERVIEW

Enterprise Technology

Digital Infrastructure and Operations

- Infrastructure and Network Architecture, Engineering, and Deployment
- Data Center Management and Network Operations Center Support
- Cloud Migration and Operations
- Systems Administration
- Desktop Engineering
- Endpoint Device Management
- Mobile Device Management

Enterprise Service Management

- IT Service Management (ITSM)
- Service Desk (Tier 0–3)
- Asset Management
- Program and Project Management

Workforce Productivity and Applications

- Web Applications Development
- Audio Visual / Media Operations
- Data Analytics and Reporting

Business Continuity and Resilience

- Business Impact Analysis and Continuity Strategy
- COOP/DR Planning and Execution
- Backup, Recovery, and High Availability Solutions
- Alternate Facilities and Operational Resilience Strategies
- Testing, Validation, and Continuous Improvement (Exercises, Plan Validation, Lessons Learned)

Artificial Intelligence

AI Engineering and Operations

- ML and Advanced Analytics Development
- Data and Feature Engineering
- Prototype Development, Modeling, Validation
- AI Systems Integration and Deployment
- ModelOps/ MLOps with Integrated Observability

AI Applications and Solutions

- AI-Assisted Operations (AIOps)
- AI-Driven Cybersecurity
- AI-Assisted Robotic Process Automation (RPA)
- Predictive/Prescriptive Analytics
- Private Generative AI Platforms

AI Strategy and Governance

- AI Readiness and Adoption Assessment
- Responsible AI
- Ethical AI, Bias Mitigation, Model Auditing
- AI Program and Project Management

Enabling Technologies and Workforce

- Retrieval-Augmented Generation (RAG), Knowledge Systems
- AI Training and Workforce Readiness

Cybersecurity

Risk Management and Compliance

- ATO and POA&M Support
- Security Assessment and Vulnerability Management
- CISO/ISSO Support

Security Operations and Continuous Monitoring

- SOC Support and Incident Response
- Continuous Diagnostics and Mitigation (CDM)
- Perimeter Defense, Intrusion Detection and Prevention

Identity, Access, and Assurance

- Identity and Access Management (IAM)
- Information Assurance and Data Protection
- Mobile Threat Protection

Zero Trust Architecture

- Multi-Factor Authentication
- Conditional Access Policies
- Just-in-Time Access
- Device Identity and Trust
- Network Microsegmentation
- Network Access Control
- Data Protection
- Real-Time Risk Scoring

Virginia Business BEST Places to Work 2026

CONTRACT VEHICLES

AAC Prime Vehicles

- GSA MAS 54141S, 5415HEAL
- GSA Polaris GWAC Small Business Pool
- CIO-SP3 Unrestricted
- Navy Seaport NxG
- NASA SEWP VI Category C

AAC Joint Venture Prime

- NASA SEWP VI Category B (TA Federal 2 LLC)
- DLA JETS 2.0 (TA Federal LLC)
- GSA Multiple Award Schedule (AS Innovation, LLC)

ISO 9001:2015 | ISO/IEC 20000-1:2018 | ISO/IEC 27001: 2022 | CMMC Level 2 (Self) | UEI LUAJMZUYPN69 | CAGE 1CZ82

CUSTOMER PORTFOLIO

National Library of Medicine (NLM)

Program Management, Tier 1-3, IT Engineering and Operations, ITSM, Cybersecurity, Cloud Migration, AI, Media Operations

Consumer Financial Protection Bureau (CFPB)

Program Management, Tier 0-2, ITIL 3 to 4, Asset Management, IT Training, Incident and Problem Management

Federal Communications Commission (FCC)

Program Management, Tier 0-3, LAN/WAN, System Administration, IT Engineering & Operations, Cloud Migration, Data Center, Cybersecurity

Defense Health Agency (DHA) Walter Reed National Military Medical Center (WRNMMC)

Program Management, Avaya PBX Unified Communications, 24x7x365 System Monitoring, Cybersecurity, End-User Support

U.S. Navy Personnel Command (NPC)

Program Management, Message Center, Tier 2/3, & AV/VTC

Equal Employment Opportunity Commission (EEOC)

Program Management, Tier 3, System Administration, LAN/WAN, Cloud Operation, Cybersecurity

General Services Administration (GSA)

Program Management, Tier 0-3, LAN/WAN, System Administration, IT Engineering and Operations, ITSM, Data Center, Cybersecurity

Department of Justice (DOJ) Office of Justice Programs (OJP)

Program Management, Tier 1-3, LAN/WAN, System Administration, IT Engineering & Operations, ITSM, Data Center, Cloud Operations

U.S. Army Reserve (USARC)

24x7x365 Tier 0 – 3 Support

U.S. Air Force (USAF)

Program Management, Operations and Systems Integration, Data Center, Network Engineering, End-User Support, Cybersecurity

AAC JOINT VENTURES
